

ECHO MEETING

LAST MEETING THIS SEMESTER

SOFTWARE FUZZING: A HELPFUL TOOL IN VULNERABILITY DISCOVERY

Speaker: Shane Shellenbarger

Shane Shellenbarger is a Security Researcher for Crucial Security, a subsidiary of Harris Corporation. Shane has attended numerous Security conferences, including ToorCon, Blackhat, and Defcon and was on the winning Defcon 2010 Capture The Flag team, AcmePharm. This experience, coupled with his passion for Application Security and a Computer Science degree from Grand Valley State University has allowed him to gain the skills necessary to become a knowledgeable security professional.
