Research Associate

The position

Caerus Discovery is looking for an immunologist to join our R&D group. The candidate will join a small team and support the development and testing of new subtractive immunization protocols, and will contribute to our biomarker discovery program.

Qualifications

- Master's degree in Biological Science, or equivalent, with 1-5 years of relevant laboratory experience
- Experience with rodent handling and antibody development is strongly desired
- Familiarity with ELISAs and mouse models of disease is desired

Apply

To apply, please submit a resume and a brief cover letter summarizing your relevant laboratory experience.

About Caerus Discovery, LLC

Caerus Discovery is a Virginia based company focused on rapid discovery of new molecular targets and development of monoclonal antibodies. Caerus utilizes a patented technology platform for vaccine and therapeutic development, in a broad range of human diseases.
