
KRASNOW INSTITUTE SUMMER SEMINAR
SERIES

Development and Implementation of a
Novel Nanotechnology for Cancer
and Infectious Disease Diagnostics

SPEAKER: Alessandra Luchini
Assistant Professor, School of Systems Biology, COS,
Center for Applied Proteomics and Molecular Medicine, GMU

DATE: Thursday, June 14th, 2012

TIME: 11 AM

LOCATION: Lecture Room (Room 229)
Krasnow Institute Building

The Translational Research in Action summer seminar series will focus on the path from scientific discovery to clinical implementation. The series highlights research collaborations between Mason and INOVA and provides a forum for exchanging ideas about translational research at GMU.
