Next Generation Sequencing Seminar

Wednesday, October 21, 2015
12:00 PM – 1:00 PM

George Mason University
Science & Technology Campus

Institute for Advanced Biomedical Research

10920 George Mason Cir, Manassas, VA 20109

Rm# 1004

NextGen Sequencing Applications and Outlook

- Learn the breadth of our product offering
- Speak one-one with specialists about how next-generation sequencing can impact your work on DNA and RNA applications
- Discover how next-generation sequencing is driving advances in cancer, reproductive health, genetic disease, and basic research
