

Edison Electric
INSTITUTE

Power by Association®

**Part-time, Paid Internship in Analysis of Electric Company Corporate Reports
Edison Electric Institute
Washington, DC**

Edison Electric Institute, one of the nation's premier trade associations, needs an intern in the International Programs department to assist in conducting research and analyses of key corporate information of international electric companies based on annual reports and sustainability reports, including data management and analytics. This is a great opportunity for a graduate or advanced undergraduate student with coursework in data analytics who wants to learn about global electricity markets, anticipated changes in the structure of the industry, customer relations management, and the impacts of policies and significant external events on the global electricity sector. . You will work on-site at EEI's offices in Washington, DC. This is a part-time, paid internship.

Job Qualifications:

- A background in energy issues is helpful, but not required.
- The ability to conduct research on international energy companies
- Familiarity with spreadsheet and database applications (e.g. Excel, Access) along with data collection and processing skills are required.
- Candidates should have verbal and written proficiency in summarizing the research methods used and conclusions obtained.
- Knowledge of French and/or Spanish is a plus.

How to Apply:

All applications must include a cover letter and a résumé. Please indicate the job title in your cover letter. Our e-mail address is hrweb@eei.org.

Who We Are

The Edison Electric Institute (EEI) is the association that represents all U.S. investor-owned electric companies. Our members provide electricity for 220 million Americans, operate in all 50 states and the District of Columbia, and directly and indirectly employ more than one million workers.
