

**Ph.D. / CS Progress Report for Academic Year 2017-18**

**Complete this form in consultation with your advisor.  
Reports submitted without a copy of your transcript will be DENIED.**

**Student Information**

Name (Last, First): \_\_\_\_\_ G Number : \_\_\_\_\_  
Advisor: \_\_\_\_\_ Semester started in PhD Program: \_\_\_\_\_  
Status: Full-Time  Part-Time  Scholarship: GRA  GTA  Pres.  None

**Progress Information**

How many credit hours have you completed (including this semester)?  
Have you received an MS degree from Mason? Yes  No  In Progress  Program:  
Have you received a credit reduction? Yes  No  In Progress  Number of credits awarded:

**Degree Requirements**

Qualifying Exams

Subject	Date (Semester/YY)	Result (Pass/Fail)
1 _____	_____	_____
2 _____	_____	_____
3 _____	_____	_____
4 _____	_____	_____

CS 600  CS 700  CS 800  CS 990

Advanced Courses

(taken so far)

Comp Exam: Pass  Fail  Proposal Defense: Pass  Fail  Candidacy: Pass  Fail   
(Semester/Year) (Semester/Year) (Semester/Year)

Proposal Title: \_\_\_\_\_ Estimated Graduation Semester/Year: \_\_\_\_\_  
(If Advanced to Candidacy)

CS 998 Credits taken so far: \_\_\_\_\_ CS 999 Credits taken so far: \_\_\_\_\_

## **Research Achievements**

### **Research Seminars:**

List the seminars and research talks you have given while in this program. Provide title, date and forum.

### **Publications:**

List your publications to date while in this program. Include submitted papers; do not include papers that are in preparation. Give the title and full authorship of each paper, date of publication (month/year), and where published.

**Research Abstract:**

The PhD students who started to work on a research problem should provide a summary of their on-going PhD research. First summarize the problem you are addressing, then give the main results you obtained so far. Conclude with a list of problems you are planning to address in the rest of your PhD work. At most 500 words.

The students who did not yet start research at GMU should briefly explain the steps they intend to take in order to identify a PhD research topic and a dissertation advisor.
