

COLLEGE OF ENGINEERING

Engineering for Bouncing Back (EBB) 2019

Research Experience for Undergraduates

June 17 to August 23, 2019

Oregon State University is excited to announce summer internships for undergraduate students interested in hands-on and interdisciplinary research on the topic of **Resilience**. The Engineering for Bouncing Back (EBB) program will award approximately 10 **fellowships of \$5,000 per student, along with travel and subsistence support**, to support participation in research projects that investigate how the field of engineering can contribute towards building resilient communities. During the ten-week program, students will work with a faculty mentor and graduate student on a specific project and will develop research skills to increase graduate school opportunities.

- \$5,000 fellowship
- Field trips for site-specific field work
- Workshops for professional skills development
