

People, Pigs, Plants and Planetary Pandemic Possibilities Plus PIZZA!!!

ONE HEALTH DAY

Panel Discussion

November 5, 2019 --- 4:30 PM to 6:30 PM

Van Metre Hall, Room 310

3351 Fairfax Dr., Arlington, VA 22201

Please register using this link: <https://www.eventbrite.com/one-health-day-panel>

Sponsored by the Next Gen Global Health Security (GHS) Network at GMU in partnership with the GMU Biodefense Discussion Group

Registration ends COB on November 1, 2019

Pizza will be served before the panel starts, so join us at 4:30PM to grab a slice (or two) and discuss One Health challenges and emerging biotech solutions with the expert panelists!

Panel Members:

- Michael E. von Fricken** MPH, PhD, GMU Global and Community Health (GCH)
- Jarod Hanson** DVM, PhD, Associate Editor at Program for Monitoring Emerging Diseases
- Willy A. Valdivia-Granda** CEO, Orion Integrated Biosciences, INC.
- Taylor Winkleman** DVM, LMI, Georgetown University, Next Gen GHS Network

This panel will discuss the One Health approach through the various lens of their real world experiences. Discussions and interactions with the audience will address insightful views of innovation and emerging technology developments for biosafety and biosecurity. So, please come and join in the discussion as we collectively investigate what it means to operationalize the One Health concept for the biodefense realm and global health security challenges!

Space is extremely LIMITED and will be capped at 35 participants, so register as soon as possible to ensure your spot in the audience. The final day to register for the event is November 1st.
