

Call for Posters – 2022 Engineering Week

All George Mason University community members (especially students) are welcome to submit posters (and associated abstracts) for the College of Engineering and Computing's 2022 Engineering Week Activities. The poster session offers the opportunity for presenters to share their work through a quick introduction to the entire conference audience, followed by one-on-one discussions next to the poster.

Important Dates

- Submission deadline: February 8th, 2022.
- Author notification: February 11th, 2022.
- Poster upload (cwilcox6@gmu.edu): February 17th, 2022.

Where to Submit

All George Mason University Community Members, especially students, are welcome to submit the completed Word template through [this form](#).

Submission Instructions

Authors are not expected to present their poster during 2022 E-Week sessions in the Nguyen Engineering Building Atrium - but they are welcome to. If present, please be prepared to showcase and to give a one minute introductory lightning talk.

The submission should cover the following information:

1. **Poster Title**
2. **Names**
3. **Academic Level (undergrad/grad/faculty)**
4. **Major**
5. **Student author (Y/N)**
6. **A brief abstract** (less than or equal to 300 words)

We strongly recommend all submissions primarily follow the Word template [here](#).

All posters must use the A1 format (594 x 841 mm/23.4 x 33.1 in).

All submissions will be reviewed by the Diversity, Outreach, and Inclusive Learning Staff and decisions will be made available via email.

Authors are expected to respond to review comments and, if necessary, resubmit their updated poster and abstract.

All accepted posters can also prepare a 1 min lightning talk (one slide) of their work, in case they opt to present during the 2022 E-Week Activities.

We are arranging to have accepted posters printed and placed at boards in the Nguyen Engineering Building Atrium.

Please note the following

1. Digital file MUST be received by 17th February 2022 to ensure printing/setup in Atrium
2. Files must be in PDF format - A1 poster size (594 x 841 mm/23.4 x 33.1 in)
3. Minimum 150dpi images & embed fonts (Press Quality or High Quality when converting to PDF)
