

NISS DATA VISUALIZATION CONTEST

SPRING 2022 · NATIONAL INSTITUTE OF STATISTICAL SCIENCES · WWW.NISS.ORG

Statistically Accurate Interactive Displays... in Graphics!

What?

NISS is sponsoring a student data visualization contest - for creating examples of how interactive data visualization techniques can be applied to enhance the data presentations in public reports about education.

Simply put, NISS is looking for Statistically Accurate Interactive Display in Graphics ...

-- **SAID in Graphics!**

Who?

The competition is open to graduate and undergraduate students at a US or Canadian institution of higher education. Entries may either be for a team of up to five students or as an individual.

Prizes? (to winners' department)

Winning entry: \$1,000

Runners-up: \$500 for the best "entry point", demonstrating how an initially static visualization can draw in viewers to interactively explore additional questions, and \$500 for the one that does the best helping the reader interpret and understand uncertainty in the data.

DATA COMPETITION!
visualization

When?

Register by 11:59 PM ET on Friday, March 18, 2022

Final Submission Deadline is Noon ET on Tuesday, April 12th

Your mission,...

- design an innovative visualization that attracts the reader and expands the information presented in a meaningful way!

Can you create a graphical presentation that grabs the viewer's attention & makes them read the report?

Then this competition is for you!

Winners will also be invited to be part of a NISS presentation on statistical graphics for researchers in other disciplines!

Visit the www.NISS.org/events for competition details and registration!
